

250 Eclipse

Introducing the "weekend extender"—the new 250 Eclipse from Wellcraft.

Luxury accommodations abound on this all-around performer. The cuddy cabin features a convertible dinette, 25 quart cooler, galley with sink—even an enclosed head and a hanging locker!

Topsides, her innovative U-shaped stern seating functions as a sunlounge or dining area with a table. Add the optional canvas camper package, and you have a large sleeping area

for the children or guests.

Entering or leaving the water for swimming or skiing is easy thanks to the integrated swim platform with boarding steps and even an optional shower.

True to her Wellcraft lineage, the 250's performance and handling is impressive. Engine options go up to a 330 horsepower V-8, and she has standard power steering, trim and tilt.

Extend your weekends to the limit, with the 250 Eclipse!
