

PRIMA

During her first year, the Prima became one of the most popular cruisers ever introduced by Wellcraft.

Innovation with an emphasis on style and function has been the key to her success. A darkly tinted one-piece window wraps around the entire cabin, admitting soft light and creating a feeling of space unparalleled on a 30-footer.

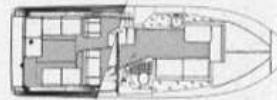

She has a contemporary, bulkhead-free design which opens the entire salon into one large living area. A convertible dinette has a hideaway table and a built-in storage shelf. Radiused teak trim has been added around the sofa and in the galley for a touch of warmth.

The redesigned galley has room to add a microwave and coffeemaker, and features a contemporary sink, faucets and a refrigerator.

She sleeps two in a double-wide aft cabin, and a forward V-berth completes her arrangements to sleep five in complete comfort.

You can choose from several seating arrangements in the cockpit, including a bench seat and storage/dunnage box. A curved, walk-through windshield makes foredeck access easy and you may even customize the bow with a fitted, padded sunlounge and pulpit.

The innovative Prima has become one of the most popular cruisers afloat. See her today at your Wellcraft dealer.
