

23 EXCALIBUR

Wellcraft has a track record of introducing innovative performance boats that are both successful and widely copied; names like "Nova" and "Scarab" come immediately to mind. ♦ This year, Wellcraft does it again with a new style leader, the 23 Excalibur. Performance styling is evolving toward faster, more slippery shapes—in other words, more like an aircraft. The comparison is easy to see sitting in twin, custom bucket seats behind the 23 Excalibur's unique "fighter style" dual canopies. ♦ The fully instrumented dash and power up to a big block V-8 enhance the effect even further. Even your passengers share in the feeling, snuggled into wraparound jumpseats in the stern. ♦ For skiing, she has a stainless steel ski eye, integrated swim platform, and plenty of room for ski and gear storage in the bow. ♦ If you're looking for a leading-edge boat from a name you can trust, check out the new 23 Excalibur from Wellcraft.
