

26 SCARAB CV

What do you get when you ask an APBA Offshore World Champion driver for advice on designing a new boat? You're looking at it: the 26 Scarab CV. ♦ Designers at Wellcraft and Chevrolet Marine teamed up with World Champion Gus Anastasi to put together one of the quicker production V-hulls ever built. ♦ A single big block V-8 drives her race-proven, low-profile hull at—well we're not allowed to say. You'll just have to experience it for yourself. Two words of advice are in order: "hang on." ♦ Custom, wraparound bucket seats face a dash with full performance instrumentation, ignition interrupter, power steering and a custom-padded, tilt steering wheel. You can even opt for a foot throttle to complete the package. ♦ We asked a world champion for a hot boat, and you can get it— at your Wellcraft dealer now.
