

## 31 SCARAB EXCEL

Each year, *Powerboat Magazine* tests the fastest, strongest, best-handling performance boats in the world. When the spray settles, one stands alone as "Offshore Powerboat Of The Year." ♦ This year the 31 Scarab Excel walked away with the honors. ♦ She has a CAD/CAM designed, multiple-deadrise, wide-beam hull with a wind-cheating, low-profile deck. The powerplants that drove her to top honors were optional twin 502's. ♦ Cockpit design closely follows that of racing Scarabs to provide maximum comfort and safety at high speeds. The custom seats convert to stand-up racing bolsters at a helm featuring full performance instrumentation, a high speed compass, speedometer, trim tabs, ignition interrupters and quadrant engine controls. ♦ Don't get the idea that the 31 Scarab is a stripped down racer, she's anything but. Below deck there is buttery soft, white-on-white, opalescent vinyl on the salon seating and forward cabin V-berth. You'll also find mood-setting amenities like indirect lighting and a stereo. An enclosed head and refrigerator are standard. ♦ Of all the performance boats in the world, only one can be "Offshore Powerboat Of The Year," and she's at your Wellcraft dealer, the 31 Scarab Excel.

### SPECIFICATIONS

L.O.A.	31'1"
Beam	8'6"
