**SUPER
SPORT**

When it comes to fishing offshore in the Scarab Super Sport—getting there is half the fun.

This ultra high performance center console fishing machine utilizes the same hull that dominates the offshore racing circuit. Microballoon filled strakes, glass encapsulated stringers and biaxial laminates give you one of the stiffest and fastest fishing platforms afloat. And she takes care of business with twin

bracket mounted outboards up to 500 total horsepower.

Her fishing armaments include a built-in insulated fish box, optional recirculating baitwell, rod racks and rod holders. The tackle box is located above the forward console seat and there is plenty of lockable storage under the coamings. A rugged sport-arch with an optional radio box is also available.

The cuddy features a roomy V-berth, lockable dry storage, 12-volt lighting and even an optional head. Find out just how much fun getting there can be on the 34 Scarab Super Sport.
