Load Capacity	10

## 232 Eclipse

Now you can have the best of both worlds—a stylish bowrider with plenty of room for cruising or skiing and... a cuddy cabin for changing and lockable storage. Sound incredible? She is—the unique 232 Eclipse.

Features begin with an innovative mini-cabin located beneath the helm console. With a 7-foot berth, storage areas and even a portable head, this remarkable feature eliminates one of the greatest inconveniences associated with open bow boats.

Topsides, the spacious bow area has forward facing, U-shaped seating with comfortable new foam-backed vinyl and coolie-can drink holders ready at hand. And the entire bow area

converts quickly to a dinette.

For fun in the sun, try the portside laydown lounge seat—or the stern sunlounge, formed by adjusting the jump seats on either side of the cushioned motorbox.

A camper package, which encloses the bow is also available, converting it into a large topside stateroom for guests or the children.

And she's equipped for over-nighting with a cooler and sink built right into the console! There's even a removable 5-gallon water tank and large storage locker under the floor.

Make the most of your days on the water with the innovative new 232 Eclipse.
