

5000 METEOR

When you can acquire virtually any possession, it's only natural to focus on an "ultimate" like the 5000 Scarab Meteor.

◆ At fifty feet, she provides a level of offshore performance and luxury imaginable only to those who dream big. ◆ The cockpit styling is based on that of an executive class jet. The deeply padded, custom twin seat converts to a stand-up racing bolster with the flip of a switch. Trim tabs with indicators, engine synchronizer, flush mounted VDO® gauges, and a digital depth sounder are all included in the standard instrumentation package. ◆ Optional Kiekhaefer® "Zero Effort" controls link you to triple 400 horsepower V8's or twin CAT 3208TA's powerplants. Either will put destinations like Bimini or Catalina within easy striking distance. ◆ When you arrive, bask in the adrenaline glow while enjoying refreshment from the cockpit wet bar. Or perhaps a relaxing swim from the custom, integrated swim platform (available with a shower) is in order. ◆ The Italian influenced interior design features understated white-on-white accented with black trim. Counter tops suggest Italian marble; glove-soft, simulated leather covers the seating areas. A deluxe entertainment center is standard. ◆ Your stateroom occupies the entire bow and has a queen-size bed. A large enclosed head with shower, sink and even an electric toilet is nearby. ◆ Set your sights on the ultimate... The 5000 Scarab Meteor from Wellcraft.

SPECIFICATIONS
