

SCARAB SPRINT

Universal Studios wanted a hot pocket-rocket to play the leading role in their live-action stunt spectacular in Orlando. The new 164 Scarab Sprint gave them all the action they needed and more! ♦ She takes her name from "Sprint" class racing boats and her performance isn't far off. She has a super-strong lightweight hull featuring biaxial laminates and Alcell® foam coring. Engine options up to 205 horsepower, as well as an optional foot throttle, don't hurt the performance either. ♦ She's perfect for skiing with power steering, speedometer, stainless steel ski eye, deluxe swiveling bucket seats and a custom-molded swim platform— available with a shower. ♦ A star is born, and you can own her! The new 164 Scarab Sprint.
