Wellcraft 302 Fisherman

The Total Package | STAFF REPORT

► EXPERIENCED ANGLERS UNDERSTAND that a thoughtfully designed platform can mean the difference between skunk and success. And with so many center consoles on the market, there's no need to settle for anything less than the perfect balance of performance, fishability, comfort and safety. Combine these desirable attributes with a trusted brand and the product is Wellcraft's 302 Fisherman, setting the new standard for some family fun.

With Wellcraft comes proven performance, and the 302 Fisherman is yet another example of a deck layout that's suited to make the most out of every fishing trip. This beefy 30 footer is an ideal craft for die-hard offshore enthusiasts, containing everything anglers need to search out and subdue the ocean's elite predators.

From bow to stern, this sleek craft is built with the utmost precision and toughness. By including components like stainless steel thru-hull fittings, powder-coated bow and grab rails, and a full aluminum frame windshield, this impressive center console epitomizes durability. Most importantly, Wellcraft produces some of the safest boats on the water, using heavy-duty fiberglass stringers and quality materials throughout.

It all starts with the hull, sporting a simple yet rugged design that slices through chop and deflects spray, providing an in-

credibly smooth ride. Having built boats for over 60 years, Wellcraft has all but perfected the process through advanced engineering and extreme attention to detail.

As far as fishability is concerned, the vessel is loaded with features that provide a seamless angling experience. Beginning in the stern, the macerated transom cutting station sits nestled between twin 23-gallon livewells. Throughout the vessel there is more than enough storage, with various conveniently located tackle compartments and rod lockers. Horizontal rod racks exist under the gunnels, with additional storage available in the deck, under the seats and overhead. Additionally, the 302 Fisherman offers tilt-out tackle storage within the deck and a two-tier compartment under the forward console lounge seat.

Even with the open deck space, the 302 Fisherman includes plenty of comfortable

seating options including an oversized forward lounge seat in front of the console, along with a three-person aft folding bench seat along the transom.

While the platform itself is extremely versatile, prospective owners are given the opportunity to add certain features to fit their particular lifestyle. Performance is a given with the 302 Fisherman, but aesthetic appeal is important as well and Wellcraft knows what it means to ride in style.

From laid back family outings to the fishing trip of a lifetime, Wellcraft delivers consistent performance and unbeatable reliability. With so many features and the versatility needed to dominate offshore fisheries in Florida and beyond, this boat truly is the total package. **Wellcraft, wellcraft.com**
